SMOKE ALARM INSTALLATION

WHY INTEGRATED SMOKE ALARMS?

Smoke alarm upgrade following new legislation

New legislation requires Queensland landlords to ensure a higher level of safety in their rental properties*.

From 1 January 2022, landlords must install interconnected smoke alarms in residential properties. When one alarm is triggered, all alarms are triggered, giving tenants extra time to exit.

All other dwellings must transition to full compliance by 2027:

- Smoke alarms must be installed in every bedroom of a home
- All smoke alarms must be powered by either a 240 volt or 10-year lithium battery
- All smoke alarms must be interconnected
- All smoke alarms must be photoelectric rather than ionisation
- All smoke alarms must meet new Australian Standard 3786:2014

Our smoke alarm service:

- Installation and testing of all smoke alarms
- Hard-wired smoke alarm installed by a qualified electrician
- All products compliant with Australian Standard 3786 : 2014
- Removal of redundant smoke alarms
- 10 years product warranty
- 10 years labour warranty

* Fire and Emergency Services (Domestic Smoke Alarms) Amendment Act 2016 (Qld) and the Building Fire Safety (Domestic Smoke Alarms) Legislation Amendment Regulations 2016 (Qld)

What We Do

FOXTONE

SECURITY ALARM INSTALLATION

We offer a wide range of the latest technology in security alarm products. Choose an alarm that suits your specific needs, whether it's a motion detector alarm, wireless alarm, or another of our extensive options. We can create a bespoke solution that meets your home's requirements and install it at a time convenient to you.

OUR TEAM

Managing director Andy is a certified security provider* who runs a team of qualified cable installers and electricians. We are a proud Australian distributor of the AVTech security system, a global leader of CCTV manufactured in Taiwan. Foxtone Andy's CCTV also has business liability insurance that covers up to \$20 million in the business of security alarms and installation.

*Security Provider License: 3255706

INTERCOM INSTALLATION

We also install and service Intercom systems. We use Aiphone intercom system – the leading international manufacturer of intercom and security, known for its simple design, technical excellence, and award-winning customer support. Aiphone intercoms range from audio intercoms, through to sophisticated video entry systems, to enterprise-level IP communications with emergency call stations.

CCTV INSTALLATION

Foxtone Andy's CCTV is a proud Australian distributor of **AVTech security system (Taiwan)**. We provide a wide range of CCTV cameras to suit your specific needs. Whether it is for your home or your business, we can customise the best solution for you.

100% made-in-Taiwan

Great sensor built-in

Trusted cyber security

Do you want to see your property remotely from your mobile?

Do you want to keep an eye on your pets at home?

Push Video cameras

We use passive infrared sensors (PIR sensors), which are designed to reliably detect people, large pets and other large, warm, moving objects. Our push-video cameras provide tested 99% accuracy that is triggered by people.

2MP/5MP/8MP cameras

We provide a range of CCTV cameras from 2 Megapixel (2MP) to 8 Megapixel (8MP). We recommend homes use 2MP/5MP, and large shopfronts upgrade to 5MP/8MP.

Motorised cameras

Motorised cameras allows you to remotely adjust your camera on your phone or NVR. You'll never lose detail when zooming in or out with Optical Zoom. There is no need to handle the lens, saving you from opening the camera to adjust it.

Our CCTV security system installation comes with a 2 year advancement replacement warranty.

Note: Advancement replacement warranty means that if your CCTV camera is faulty, we replace it instantly without any wait time for a replacement to arrive.
